

Pedestrian Strategy Framework

RPF - Traffic & Parking Services

Steve Rose

February 2017

Council's Strategic Plan

WELL PLANNED TRANSPORTATION

Improve our road network

Improve options to get around

Improve road safety

Contents

1. Background/Context
2. Where are we now/Existing Efforts/Successes
3. Next Steps
 - a. Physical improvements
 - b. Education and outreach
 - c. What are others doing?
 - d. How do we compare?
 - e. Enforcement
 - f. Policy review
 - g. Performance Monitoring
4. Report Back
 - a. Near Term
 - b. Long Term

Background

- Our goal is to examine the current conditions of pedestrian safety measures and make recommendations for near and long term actions and potential funding sources to improve pedestrian safety and walkability

Where are we now/Existing Efforts/Successes

The first step in establishing our Strategy will be to look at our current conditions and determine how to improve connectivity and where we can improve to get a better result.

Examples

Next Steps

- a. Physical improvements
- b. Education and outreach
- c. What are others doing?
- d. How do we compare?
- e. Enforcement
- f. Policy review
- g. Performance Monitoring

Next Steps

In the Short Term, focus on actions with immediate and noticeable impact, particularly around pedestrian safety.

In the Long Term, focus on projects to make significant improvements to the connectivity and accessibility of our current network.
