She also discussed the impact on the area wildlife that the construction will have, as well as the increase in coyotes being seen during the day in the area. She noted her concerns related to accessing the proposed development through the existing neighbourhood and the bonfires that occur along the unsupervised paths.

Ms. Staples discussed the access to the proposed stormwater pond at Poplar Drive and Pine Drive and questioned if the access would be fenced. She provided a picture showing an example of a fenced entrance to the stormwater pond on Birkhall Crescent. In closing, Ms. Staples thanked Council for considering her information and noted she hoped it would be helpful in future decisions.
