DISCUSSION REGARDING A NON SMOKING POLICY AND THE IMPACT ON NEIGHBOURS

Councillor Riepma advised that the Cook Street residents that neighbour the College property are still having issues with smokers congregating beside or in front of their homes. R. Calvano provided an update on the College's approach to discourage students from smoking near the Cook Street properties such as encouraging students to go out to Georgian Drive, educating the students to be respectful of the neighbouring properties and offering homeowners the option of having Georgian College staff to periodically attend the locations to clean-up debris.
