Understanding the Methodology – collecting data

Tourism Barrie is using Environics Analytics' MobileScapes and ENVISION technology to capture the data, provide the number of visitors, and identify them.

Uses Destinations Internation Festival & Events Calculators and Ministry of Tourism, Culture and Gamming TREIM matrix to establish the Economic Impact of each event.

By adopting these industry-standard tools and methodologies, Tourism Barrie ensures consistent, reliable, and data-driven evaluations that support informed decision-making and maximize the economic benefits for Barrie's tourism industry

Ensure a standardized and credible approach to economic impact measurement and reporting,

Understanding the Methodology – collecting data

MobileScapes is the leading mobile movement database in Canada, which, simply put, captures your cell phone when you enter a Geofenced area.

When the cell phone enters into a geofenced area, it pings the cell towers.

Mobile movement data is integrated into Environics Analytics' MobileScapes, to provide insights into consumer behavior, including visitation patterns, dwell times, and movement trends.

These insights are further enriched by linking the mobile data to PRIZM segments, allowing for a comprehensive understanding of the lifestyles and behaviors of different consumer groups.

Barrie – Tourism Industry – Year in Review 2024

Festivals & Events play a vital role in Barrie's tourism ecosystem, serving as key attractions that draw visitors to the city.

Barrie relies heavily on its vibrant calendar of Festivals & Events to stimulate tourism and enhance its overall appeal.

Festivals & Events are one of the most cost-effective drivers of tourism growth, generating significant returns by attracting diverse audiences and fostering community engagement.

These insights will enable Tourism Barrie to refine its destination marketing strategies for 2025–2026, focusing on aligning with target markets and existing visitor segments while identifying high-potential audiences.

Destination Marketing & Management – 2025 & Beyond

Using Environics Analytics Mobilescapes Geofence Data to define Barrie's Target Markets:

Who is coming to Barrie and from where?

By aligning our marketing strategies with consumer segmentation data, Tourism Barrie is better positioned to strengthen and maximize the effectiveness of Destination Marketing campaigns to effectively reach target high-yield overnight visitors.

This strategy will increase the Municipal Accommodation Tax (MAT) revenues, enabling greater reinvestment into Barrie's tourism economy.

Target Markets – Segmentations

Using Environics Analytics, we identified

3 main target markets out of the top ten PRIZM segments that we identified coming to Barrie in 2024

FAMILIES - TB1

MULTICULTURAL - TB2

Who are the 10 million visitors that came to Barrie is 2024

Most importantly, what are they doing when they are here?

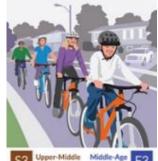

TB1-FAMILIES

Family Market Demographics and Statistics

Cluster of Middle to Upper-Middle income suburban families 5 prime similarities, and coming to Barrie

- → One of the larger segments, this demographic is comprised of families with younger children, with maintainer ages between 35 and 54 who reside in suburban communities.
