He provided a number of comments concerning his issues related the Public Meeting process including that the opinions, presentation, reports and documents are considered part of the public record and that he felt that this was a flawed process. The Resident discussed his concerns related to the issues of traffic congestion along Mapleview Drive and noted that he felt that if the problems are not addressed before the new subdivisions are constructed that these issues would continue to grow. He suggested that the planners need to focus on smaller issues first and then the larger issues can be resolved easier. He noted his concerns related to the proposed Highway 400 interchange at Big Bay Point Road and suggested that Planning staff should have approached residents and considered their input.

The Resident expressed his concerns associated with the School Boards allowing more portables on school properties and questioned the safety of the portables due to the number of fire exits, window screens and maintenance.

The Resident noted other concerns including, reducing carbon monoxide and pollution, restricting recreational vehicles and providing alternate areas to live or park these vehicles. He also noted his concerns associated with the construction of the proposed development including restricting the construction equipment, soil dumping, storage of materials, portable toilets away from the existing residential areas. He also noted that single dwellings should not have driveways beside each other and that there should be better planning for snow removal.

The Resident asked to have an additional Public Meeting, as he felt that he had many other concerns that he would like to present.

Mayor Lehman provided responses to the Resident.

2. **Mr. Colin MacLellan, 80 Versailles Crescent** questioned whether the development at 961 Big Bay Point Road is dependent on the application for the other side of 961 Big Bay Point Road being submitted as he understood it's the location of the required road. He asked how many houses are to be built and the proposed size of the lots.

Mr. McKinnon provided responses to Mr. MacLellan.

3. **Mr. Dirk Cockburn, 105 Winchester Terrance** advised that he abuts the proposed subdivisions. He indicated that he attended the community meeting for more information on the applications. Mr. Cockburn indicated that he was concerned with construction of the subdivision. He questioned if there was a plan to reduce the impact of construction equipment parking and driving through the existing residential streets, and noise of the heavy equipment.

Mr. Duhamel provided responses to Mr. Cockburn.

4. **Ms. Maria Rozentsuayg, 1045 Big Bay Point Road** commented that one of the developments borders her property and noted her concerns associated with privacy and construction access via her property. Members of General Committee asked a number of questions of the Applicant's representatives and City staff and received responses.
