

To The Mayor and Barrie Council Members:
Robert Harrington

Deputation request: regarding Barrie Taxi Situation (safety of cabs, metered rates and By-law enforcement)

I am opposed to the lowering of the meter rates unless other methods are put in to place.

Different companies use different meters and different safety measures and the safety measures are for the drivers safety not the public.

Yearly Inspections should be more then cosmetic. There needs to be more input from MTO at the inspections and performing random inspections.

Thanks Bob Harrington
