## SITE STATISTICS

**LOT AREA: 1.08 HA (2.67 AC)**  
**UNITS: 81 (50 APT, 31 TH)**  
**FLOOR SPACE INDEX: 0.99**  
**RES. DENSITY: 80 UPNH**  
**HEIGHT (APT): 6 STY, 25M (82FT)**  
**HEIGHT (TH): 3 STY, 12M (39FT)**  
**PARKING: 156 (59 UNDERGROUND)**

# OFFICIAL PLAN

## EXISTING DESIGNATIONS

- Institutional permits community, religious, school uses
- General Commercial permits non-residential uses, and medium density residential uses within the same building to a density of 53 UPNH

## PROPOSED DESIGNATION

- General Commercial with site specific policies
- Permit high density residential uses to a density of 80 UPNH
- Permit stand alone residential uses (Townhouses)

# ZONING BY-LAW

### EXISTING ZONING (C4-(SP-341))

- General Commercial permits non-residential uses, and residential uses within the same building (apartments)
- North setback 6 metres minimum
- Height 9 metres maximum (3-storeys)

### PROPOSED ZONING

- General Commercial with site specific standards
- Permit stand alone residential uses (Townhouses)
- Require north setback of 10 metres minimum
- Permit height of 12 metres for town houses, and 25 metres for the mixed use apartment building.

# Planning Applications Submitted Include:

- Official Plan Amendment
- Zoning By-Law Amendment
- Site Plan Application

# Supporting Studies Submitted Include :

- Functional Servicing Report - Schaeffers Engineering
- Traffic Impact Study - Paradigm Transportation Solutions
- Hydrogeological Study - Soil Engineers Ltd.
- Geotechnical Study - Soil Engineers Ltd.
- Environmental Noise Feasibility Study - DbA Acoustical
- Phase 1 & 2 Environmental Site Assessment - Soil Engineers Ltd.
- Sun/Shadow Study - S & C Architects
- Urban Design Brief - KLM Planning Partners Inc.
- Planning Justification Report - KLM Planning Partners Inc.

# CONCEPTUAL RENDERING

224-250 ARDAGH ROAD / 2596843 ONTARIO INC.  
CITY OF BARRIE

OCTOBER 28, 2019

# NEIGHBOURHOOD MEETING

**1. Traffic** - Number of units and contribution to volume, access location/visibility, general road safety concerns in the context

Response - A TIS has been completed which considers access location/visibility/safety, and volume contribution. The report is under review by staff and additional traffic counts and assessment will be completed if required.

**2. Height** - Potential for overlook to neighbouring properties.

Response - the site has been designed with sensitivity to adjoining lands through building arrangement and setback application, to ensure appropriate relationship to the context..

**3. Rear yard size for townhouses**

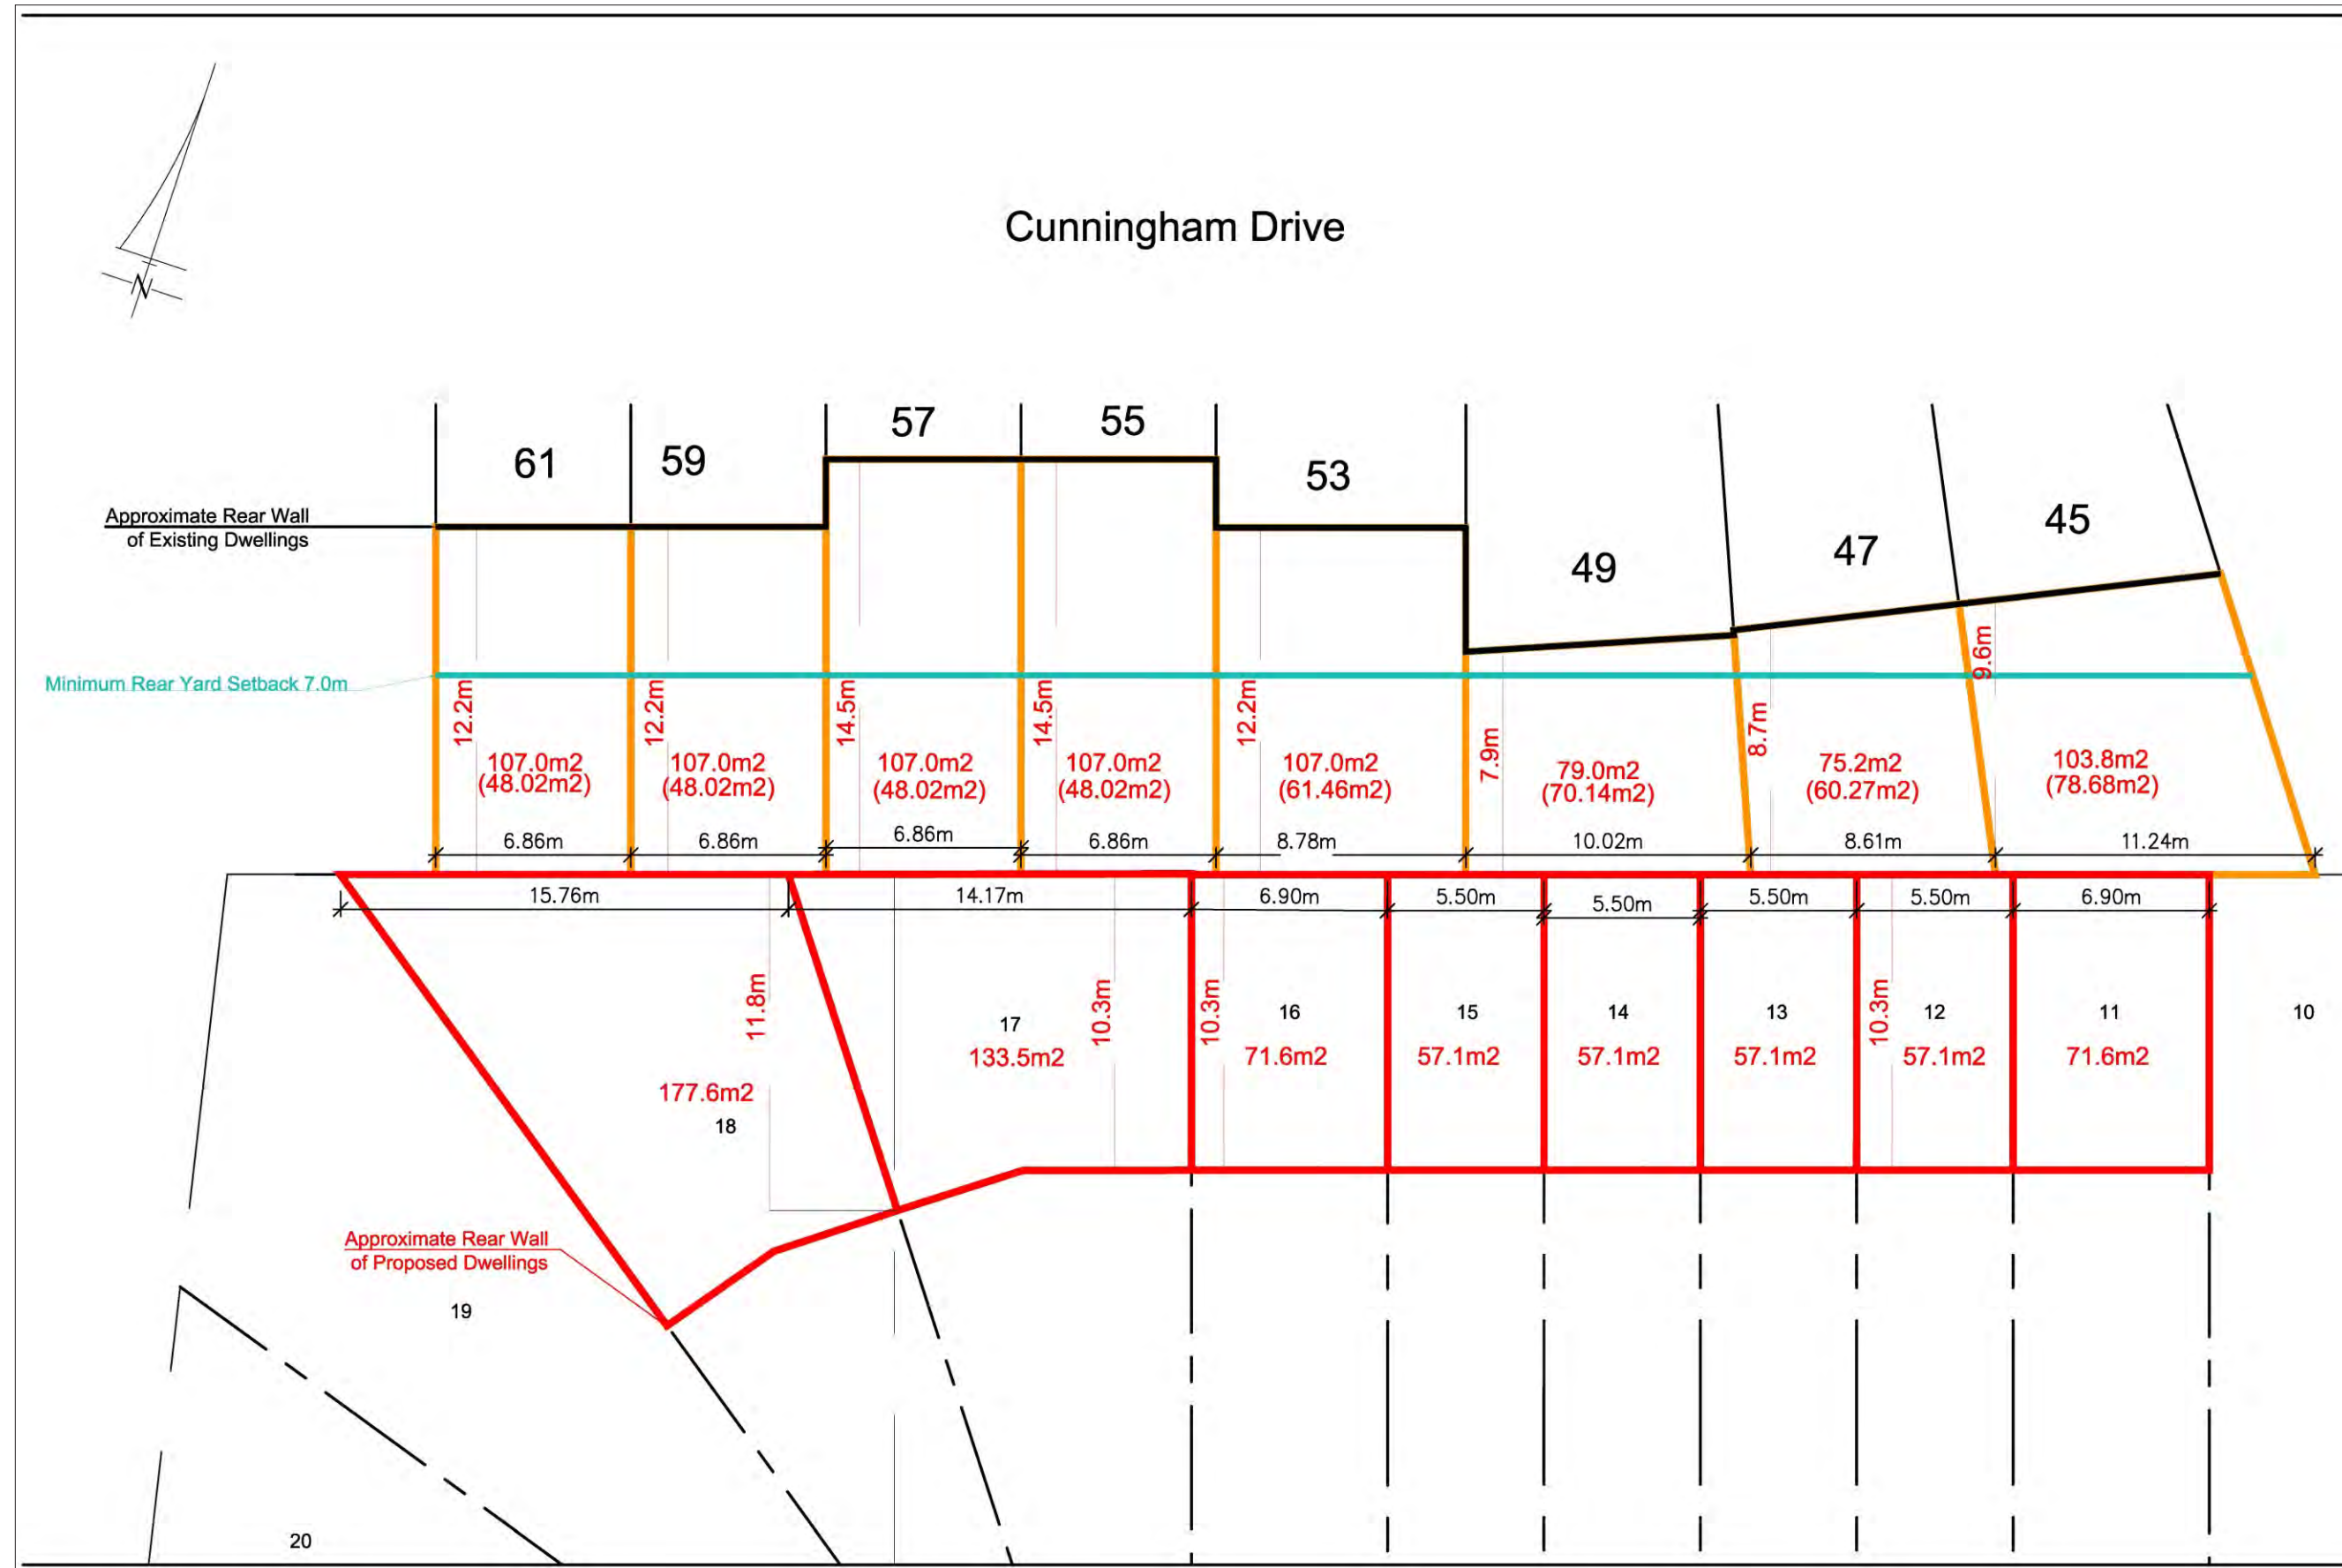

Response- An analysis of rear yard depths and areas has been undertaken comparing proposed townhouse rear yards to those of the abutting lots north, which revealed a that proposed depths and areas are similar. Minimum depth and area to the north range from 7.95m-14.9m and 75 sq.m to 107 sq.m respectively, where the proposed lots north range from 10.25m-11.8m and 57 sq.m-177 sq.m respectively.

**4. Architectural style** - design preference and industrial appearance

Response - A rendering has been prepared to supplement the 2D elevations submitted to provide an improved depiction of design and material proposed.

# REAR YARDS COMPARISON

THANK YOU
