

**Notice of Public Information Centre
Municipal Class Environmental Assessment
County Road 4 Widening from County Road 89 (Shore Acres Drive)
To Barrie City Limits (Lockhart Road)**

The Study

Following completion of the County of Simcoe's Transportation Master Plan Update, the County of Simcoe (the County) has identified the need to widen County Road 4, between County Road 89 (Shore Acres Drive) and Barrie city limits (Lockhart Road). The County is undertaking a Municipal Class Environmental Assessment (MCEA) to consider options for the widening of County Road 4 to address increasing traffic demands and to support the growth and development in the county. The addition of a multi-use trail along the study corridor will be considered as part of the planning and design of the project. The approximate extent of the study area is shown on the map.

The Process

The study will follow Schedule C of the MCEA process (Municipal Engineers Association, October 2000, as amended in 2007, 2011, 2015), which is an approved process under the *Ontario Environmental Assessment Act*. The study will evaluate alternative design concepts with consideration for the natural, cultural, technical, and economic environments and recommend a preferred design in consultation with agencies, stakeholders, Indigenous communities, and the public. At the conclusion of the study, the process will be documented in an Environmental Study Report (ESR), prepared for public review.

Comments Invited

The County would like to ensure that anyone interested in this study has the opportunity to provide input into the planning and design of the project. A virtual Public Information Centre (PIC) will be available on the County website to update the public on project activities, identify the preferred design solution, present the preliminary design solution, and gather public comments. PIC materials pertaining to the study are available online at <https://simcoe.ca/projects/road-projects/county-road-4-cr-89-to-barrie-city-limits/> starting **August 28, 2024**. Your comments on the project and information materials are encouraged by **September 27, 2024**. Following the PIC, and in consideration of comments received, the preferred design option will be identified.

Please contact either of the following Project Team members if you are unable to access the online information concerning this study or if you would like to be added to the Project Contact List to receive future project notices.
