ACCESSIBLE TRANSIT

D. Taylor and H. Morgan discussed the recommendation from the AAC Sub-Committee on Transit Report dated October 7, 2019 concerning lack of accessible alternative forms of transit (accessible taxis/private companies). H. Morgan explained her rationale and she commented that Barrie's current individualized Specialized Transit Service does not run 24/7 and can impact those community members with disabilities that may require accessible transit services after hours. Ms. Morgan noted that it can be quite challenging to get an accessible taxi after hours as she feels there are a lack of accessible taxis in Barrie.

D. Taylor suggested that by providing incentives may encourage taxi companies to increase the amount of accessible taxis.

D. Taylor and H. Morgan discussed and provided suggestions on the following:

- To provide incentives for accessible taxis;
- The scheduling process and length of service related to accessible transit;
- Alternative services for scheduling out of hours for accessible transit;
- Access to transit scheduling systems; and
- Community Routes for 2020.

J. Zimmerman, Supervisor of Transit Operations and Infrastructure advised that staff in the Transit Parking and Strategy Department have reviewed the report provided by the AAC-Sub Committee dated October 7, 2019 and will be providing a presentation to the Committee in January, 2020 regarding some updates to the Transit Services which may address some of the concerns related to accessible transit. Mr. Zimmerman commented that there are plans for a software update to the Specialized Transit Services scheduling system.
