Concerns re 759 Yonge St. Development

Height of buildings on top of commercial sections

Parkland:

Security

Backyards open to trails and parkland

Access points between houses to parkland

Wildlife Habitat

Many species of animals and birds make this area their home...large population of coyotes/coywolves are becoming more aggressive and have been known to chase a teenager out of the woods. He was on an existing path.

Ecology

Many areas are swampland, will this be filled in?

Bonfires

Offset trails throughout this area lead to bonfires actively occurring in the night. Did you know that the McMurray fire was caused by human activity off a trail?

Access to Poplar and Pine Drives

Currently the proposal calls for access for the construction and maintenance of the storm water pond through Poplar Drive. This will also allow access to Pine Drive as an entry point.

The Tunnel

This park will see a huge explosion of use when the former Baywood Development is completed by another developer. It also allows for any covert activity via the GO train due to its secluded area. Eg. drug running.
