PUBLIC COMMENTS

1. **Mr. Ray Duhamel of the Jones Consulting Group** on behalf of the Fernbrook Companies thanked staff for the open process, meeting with him regarding the proposed amendments and for the positive discussions about industrial development in Barrie. He indicated that the proposed amendments provide a good framework for development of industrial lands and would eliminate the segregation of certain uses in certain areas. He also noted that Fernbrook is pleased that staff are not recommending site plan control approval for all industrial parcels. Mr. Duhamel also indicated that Fernbrook supports the inclusion of the additional uses proposed to be permitted within the new Light Industrial Zone.

Mr. Duhamel discussed his client's concerns regarding the proposed amendments including the zoning changes in the area of Saunders Road and Bayview Drive, noting that properties owned by Fernbrook are proposed for conversion to General Industrial rather than the Light Industrial with fewer service based uses permitted. He requested staff to reconsider this change.

Mr. Duhamel also observed that lands owned by Fernbrook on King Street are currently zoned Service Industrial (EM3) with special provisions restricting certain uses including banks and recreational establishments only for the lands owned by Fernbrook. He requested that staff consider removal of this special provision as part of the review.

Mr. Duhamel indicated that Fernbrook supports the current practice of permitting sensitive land uses including commercial schools and day nurseries as of right in the Service Industrial Zone, as well as the proposed additional uses such as places of worship, but does not support the need to rezone lands on a site-specific basis to accommodate the proposed uses. He feels that the proposed amendments would represent a more restrictive list of permitted uses as well as impact timing and costs associated with projects due to the requirement for rezoning applications. In closing, Mr. Duhamel advised that he is available to meet with staff to discuss Fernbrook's concerns further.

2. **Ms. Tara Stamp of Peaceful Transitions** advised that Peaceful Transitions is an alternative funeral service provider to the traditional funeral homes. Their services allow families to celebrate a life in the way they choose. She thanked staff for recognizing this type of facility and including provision for this use in the proposed policy changes.
3. **Mr. Chuck Harris, 121 Victoria Street** requested that consideration be given to amendments specifically when industrial zoned areas are adjacent to single family residential areas as follows:
 - provision of a 50% landscape frontage when industrial and residential uses share the same roadway;
 - any new industrial construction be restricted to a maximum height of 9 metres if it is to be located within 200 metres of a residential area;
 - telecommunication towers be required to have the identical setbacks from single family zoning as in other areas in the City.

Mr. Harris also noted that Places of Worship in industrial areas and adjacent to single family residential areas would operate at different times than industry and he noted that he would like to see setback requirements for Places of Worship.

Members of General Committee asked a number of questions of City staff and received responses.
