Laurentian Students' Union being represented, James Westman speaking, Laurentian students present.

Purpose: The purpose of this presentation will be to have the student voice heard, which has been tragically absent from discussions over our own future at Laurentian. We are asking for the full support of council to allow all Laurentian students to complete their degrees in Barrie. We are trying to build as much support as we can - from Laurentian to the Ministry of Training, Colleges, and Universities - but support of city council is crucial for the only university student constituents in this city. Our best chance to allow all Laurentian students to stay and grow the prospects of university education in Barrie, rather than letting such be exported to Sudbury, Orillia and Toronto, is to have everyone on board. We need Laurentian, the province, and the municipality to work together.
