FOR IMMEDIATE RELEASE

Barrie's annual road line painting operations are underway

(Barrie, ON) – The City of Barrie's pavement marking contractor has started the annual painting of road lane markings and arrows across Barrie. This includes white lane lines, bike lanes, and yellow centre lines and turning arrows. This work takes place each year to make roads safer for drivers, cyclists, and pedestrians.

Work is now underway and is expected to continue for approximately six weeks. The painting typically takes place overnight, from 10 p.m. to 7 a.m. Intersection painting, which includes stop bars and crosswalks, will also take place over the next few months and will run until October.

Drivers are reminded to obey all signage and warning signs.
