

From Patricia Teichner

To the Municipal Government of Barrie

Representatives of the City of Barrie

Mayor Jeff Lehman.

Please Mr. & Miss. & Representatives of Proposed  
Building Committee  
Special mention Re 521-527  
Properties of Big Bay Point Ave  
namely numbers 521-527  
(Development)

Please Represent Committee of Persons for Concern.

It has come to the attention of citizens who  
live in South Barrie, that the changes, in  
what has been a sincerely wonderful neighborhood  
are being forced to accept plans for Town House  
Construction, which is not acceptable to those  
Residents to turn this area, from what is  
becoming an unsafe area; rather a hopeless  
way, to have homes and streets, where at  
present is not really not homes, but a mixture  
of increasing "moores" not a lovely "home" area.

(over)

At present time Grand Forest, has had to have speed bumps installed, to slow down two major intersections (Big Bay Pt. & Huest.)

The area has many schools, and an increase in citizen number, such as proposed town house streets.

It makes for unsafe streets at times, in early mornings and mid days.

We may need more homes as citizen numbers increase when like all of this city is in a growth (necessary) but not town homes that are three or four stories in height, making apartments on neighborhood streets.

The corners of Big Bay make for not safe they are areas that need more thought.

The intersections of the streets like Yonge & Big Bay are at times unsafe (Yonge St, has always been Hwy 11) its increase number in this type of neighborhood must be more reviewed in thought and acceptance.

Please be thoughtful, and not extreme in actions of what is building homes, not unsafe streets.

Sincerely Mrs. Patricia Seelena
