Subject: FW: Notice of Complete & Public Meeting - 571 Huronia Rd (D30-023-2021)

Hello Tyler,

I was at the neighbourhood meeting on December 9, 2020.

Is the proposed entrance at Huronia Road going to be a right in / right out? If not, is there a traffic study done or proposed to justify left turning in or out at this entrance?

I believe that the distance of the entrance from Mapleview is too short and is normally stacked with cars trying to get across Mapleview.

A left turn in at this location would require a left turn lane which currently does not exist on Huronia. Is the developer going to pay for the road improvements?
