APPLICATION FOR ZONING BY-LAW AMENDMENT - 301 MCKAY ROAD WEST (WARD 7) (FILE: D30-017-2022)

The purpose of the Public Meeting is to review an Application for a Zoning By-law Amendment submitted by KLM Planning Partners Inc. on behalf of Watersand Construction Limited for lands known municipally as 301 McKay Road West, Barrie. The property is located within the Salem Secondary Planning Area.

The application proposes to amend the zoning on the subject lands from Agricultural General (AG) to Neighbourhood Residential (R5), Environmental Protection (EP), Educational Institution Special Provision (I-E) (SP-XX) and Neighbourhood Mixed Use (MNU). The application is being reviewed concurrently with an application for a Draft Plan of Subdivision which will facilitate the creation of two hundred and four (204) single detached residential dwelling units, forty-nine (49) townhouse units, a recreation centre, and an elementary school.

Zoning By-law Amendment - Site-Specific Provisions

The proposed Zoning By-law Amendment is being requested to rezone the subject lands from Agricultural General (AG) to Neighbourhood Residential (R5) (SP-XX), Environmental Protection (EP), Educational Institution Special Provision (I-E) (SP-XX) and Neighbourhood Mixed Use (NMU) to permit the proposed single detached and townhouse residential units, an elementary school and a recreation centre. In order to accommodate the development as proposed, two site-specific provisions are being requested as follows:

1. To permit the Neighbourhood Residential (R5) Zone uses and development standards as established in Section 14.5.2 and 14.5.6 (Salem and Hewitt's Communities Provisions). This request will permit the future development of a public elementary school with a special provision to permit uses in accordance with the R5 Zone provisions should the school board not acquire the elementary school block. This zoning approach has been applied consistently across the Hewitt's and Salem Secondary Plan Areas to ensure that school blocks may be developed with residential uses, should a school board decide not to purchase an allocated site.
2. That the provisions of Section 8.3.5.2 Landscaped Open Space shall not apply to the elementary school site which requires that elementary schools provide a landscaped open space of 1 hectare in an area which equates to 41% of the new elementary school site. Subsequently, Section 8.3.1 will apply to the new proposed school which requires a minimum landscaped open space of 35%. This request will permit the school board to meet the demand for parking, kiss and ride drop off lanes, bus loading areas, portable pads and an asphalt play area without the requirement for a future Zoning By-law Amendment application. A subsequent Site Plan Control application would be required prior to the development of the elementary school site.
