Motion for Consideration:

That staff in Development Services investigate the restriction of parking on Grove Street East from Johnson Street to Penetanguishene Road to install a bike lane.

Reason or Rationale in support of the motion:

With the reconstruction of Grove Street from Johnson to Duckworth a bike lane with no parking has been implemented. A shared bike lane already exists on Grove Street from Johnson to Penetanguishene. Now is an appropriate time to make the bike lanes along Grove Street consistent from Penetanguishene to Duckworth and eliminate the shared bike lane in the short section from Johnson to Penetanguishene.
