RECOMMENDED MOTION

1. That the list of proposed names for the Municipal Names Registry, as identified in Appendix "A" to Staff Report PLN007-19, be approved.

PURPOSE & BACKGROUND

Report Overview

2. The purpose of this report is to recommend a list of names to repopulate the Municipal Names Registry list that will be used to facilitate the naming of streets, parks and other municipal assets in future developments within the City.
3. Council approved the Municipal Street Naming policy on January 11, 2016, which established the processes and criteria for naming, renaming or dedicating municipal assets such as streets, parks, and facilities as well as the major elements of such municipal assets, including the methods by which the public may provide suggestions and comments.
4. The Municipal Names Registry is a central repository of all approved names for streets, parks, and other municipal assets. The registry includes qualifying names as suggested by the public, and commemorative names.
5. The current list of Council approved names on the Municipal Names Registry has been depleted and repopulation of the list is required.

ANALYSIS

Process for Assigning Street Names without a Municipal Names Registry:

6. The current process for municipal naming approvals is done on an individual basis, as per the Municipal Naming Policy (January 2016). Planning staff review requests individually from the proponent or developer for municipal names to ensure a complete explanation of the significance of the name is provided.
7. Planning staff circulate all names submitted to appropriate City departments and external stakeholders, including Emergency Services for commenting.
8. Planning staff inform the developer if the name is deemed unacceptable. If the proposed name(s) are deemed unacceptable, the developer is required to provide additional names and return to the circulation process again until approval is provided from City departments and external stakeholders.
9. Planning staff prepare a report for General Committee's consideration with respect to proposed naming of municipal assets. Final approval is granted by Council. Once the municipal names are approved, the Planning Department is able to proceed with assigning municipal addresses within the development.

Circulation and Vetting Process Comments:

10. A complete list of proposed names for the Municipal Names Registry were circulated to appropriate City departments and external stakeholders, including neighbouring municipalities. No concerns have been raised regarding the proposed names found on Appendix "A".
11. Names shown on Appendix "C" are names that were recommended but did not meet the criteria outlined below and cannot be put forward for approval.

Street Suffix Assignment:

12. All of the proposed names, to be used for streets are to be followed by the Council approved suffix of Street, Drive, Avenue, Boulevard, Crescent, Court, Gate, Lane, Trail, Way, Terrace, Garden, Grove, Pathway, Heights, Land and Mews.
13. The suffix will be assigned by the Planning Department at the time that the proposed street names are selected by the developer, based on the Council approved street name type designations, indicated in Appendix "B" of the Municipal Naming Policy.
14. Private Roads shall receive the suffix "Lane" as per the Council approved Private Road Naming Policy.

19. The following alternative is available for consideration by General Committee:

Alternative #1: General Committee could reject the recommended motion and request that the Planning Department provide a new or revised list of names for the naming of Municipal Assets in future developments.

FINANCIAL

20. There are no financial implications for the Corporation resulting from the proposed recommendation.

LINKAGE TO 2019-2022 STRATEGIC PLAN

21. The recommendation included in this Staff Report supports the following goals identified in the 2019-2022 Strategic Plan:
- × Improving the ability to get around Barrie
 - × Fostering a safe and healthy city
22. Providing street names as part of future developments that are unique and do not conflict with existing street names in surrounding municipalities supports well planned transportation. The street names will allow residents and Emergency Services to navigate easily to and from future developments in the City of Barrie, which fosters a safe and healthy City.
