**WHEREAS** other countries have significantly reduced drug-related fatalities with reforms such as legal regulation of illicit drugs to ensure safe supply and decriminalization for personal use; and

**WHEREAS** supports are needed, but measures that save lives are essential if people are to survive and access supports; and

2. That the Government of Canada immediately seek input from the people most affected by this crisis including municipalities and meet with provinces and territories to develop a comprehensive, pan-Canadian overdose action plan, which includes comprehensive supports and full consideration of reforms that other countries have used to significantly reduce drug-related fatalities and stigma, such as legal regulation of illicit drugs to ensure safe supply of pharmaceutical alternatives to toxic street drugs, and decriminalization for personal use.
