## VERBAL COMMENTS:

1. Sebastian Vatsoff, 2 Kozlov Street provided his opinion on residential neighbourhoods. He noted that are farther away from the intensification corridors consisting of single detached homes, bigger properties and older quieter neighbourhoods that it is important to remember as Barrie becomes more intense, that there is real value in preserving those parts of the City and that it is important to looking at development from an affordable housing point of view as well. Mr. Vatsoff advised that he felt it is feasible to place semi-detached or tight knit developments within the existing neighbourhoods to provide residents opportunities to access affordable housing in quieter parts of the City. Mr. Vatsoff suggested that neighbourhoods contain different types of housing including single detached, semi-detached and townhomes throughout the City would be beneficial to the community.

Members of Council asked questions of clarification and received responses from City staff and the applicant.
