### **PRESENTATION CONCERNING ASSESSING DEVELOPMENT RELATED TRANSPORTATION IMPACTS**

B. Gratrix, Transportation Lead for the Development Services Department provided a presentation concerning Assessing Development Related Transportation Impacts.

Mr. Gratrix discussed slides concerning the following topics:

- The legislative requirements related to planning for growth;
- An overview of the Transportation Master Plan;
- An outline of the Transportation Impact Studies;
- An outline of the elements of the Transportation Impact Studies:
  - Intersection and Road Capacity Analysis;
  - Site Access and Circulation; and
  - Active Transportation, Transit, Parking and Transportation Demand Management.
- An illustration of a sample development in Barrie
- An example of a Traffic Brief Excerpts for 481 Yonge Street; and
- The strategic actions to support growth related to transportation planning.

Members of the Committee asked a number of questions of the presenter and received responses.
